## OUR PRO - VICE CHAIRMAN

“The function of education is to teach one to think intensively and to think critically.

Intelligence plus character- that is the goal of true education”

Martin Luther King Jr.

It gives me great satisfaction that the school is progressing in all accomplishment towards overall development and personality of the students. Academic excellence along with extra-curricular activities completes the process of education. Hence it is important that our school keeps pace with changes taking place in teaching and learning methods. I would like children to recognize that education does not only mean academic but self development, which is a part of overall education and that the school must continuously aspire for all round improvement so as to make the institution as one of the leading schools.

We aim at ensuring that our comprehensive development programmes provide students with an international learning experience, while preserving our core Indian values.

With such qualities imbibed within them, our students are bound to “Arise, Awake, Ascend” to greater heights and a greater tomorrow.

I wish success to the school in all its endeavours.

Swapnil Jain

## DPS - ALIGARH, PRINCIPAL

"It's no secret that a solid education may transform a person's life. The yearning for change is what's new."

I am pleased and privileged to be the principal of Delhi Public School Aligarh. DPS Aligarh has established a reputation for academic and holistic excellence through the hard work of our students, teachers, parents, and staff at a school with such a rich tradition both in and out of the classroom. We, on the other hand, do not believe in complacency. Our country's education is changing into a new form, shifting from content to concept. We, too, are committed and dedicated to overcome the paradigm shift difficulty. The school is embracing and adjusting the modifications in a comprehensive manner.

If given the necessary supports and opportunity, I think that every student can learn and succeed. Our teachers and staff are dedicated to deliver a stimulating and suitable educational experience for all students in a respectful environment that promotes learning and growth. At the same time, we know that family and community support are crucial for our success, so I invite you to join us in our efforts to educate your children. We can create a learning environment that benefits the entire Mayfair community if we work together. I am truly honoured to be a member of this clan. May God continue to bless us all.

Our Mission is to nurture individual potential. We believe in cultivating intelligence and talent. Rather than being fixed and finite, intelligence and talent will expand and grow, given the right encouragement. So we aim to keep students' dreams and aspirations alive.

We spare no efforts to make the educational experience of our students meaningful and relevant to the socio-economic needs of the times & to equip our youth to face the challenges of the future for leading the society from the front, while ensuring that at the same time they are enjoying their experience of learning.

My very competent team of teachers strive to focus on each and every child, monitor and mentor them, appreciate their achievement and encourage them to overcome their shortcomings.
