**CLASS-II**

**GREETINGS FROM DPS FRATERNITY**

Dear Parents,

Holiday! Just the word excites and overwhelms a child. A child loves holiday but holidays don't necessarily mean just rest and play. Holidays are always a welcome break from the normal routine and all look forward to them. We are going to engage our children with certain responsibilities and also help them to enjoy their holidays with fun filled activities which lead to the enhancement of their creativity and artistic expression.

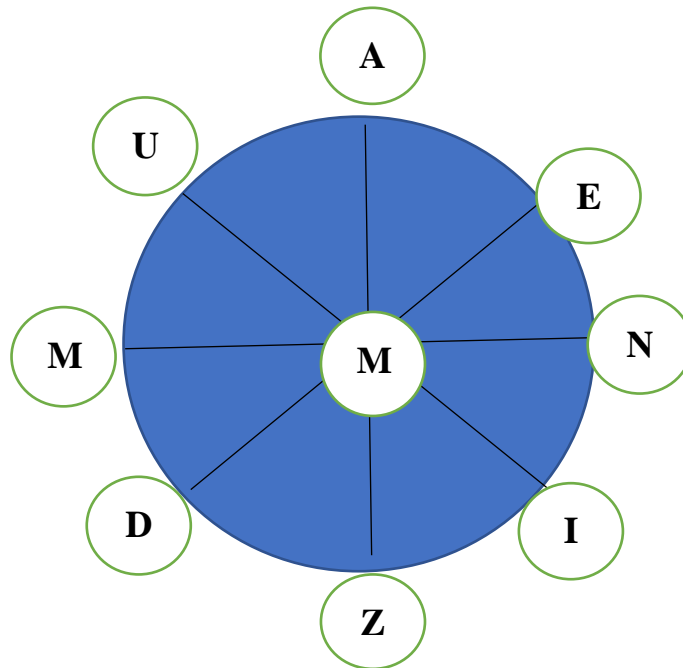

Dear Students,

Summer vacations are synonymous with fun, frolic, getting up late in the morning, playing for longer hours with friends, going for picnics, exploring new places and watching fun filled shows on television. But dear children, there's lot more you can do to make your vacations more interesting, meaningful and full of fun along with doing all your heart desires. It will surely mould you for a better and successful forthcoming year.

### MATHS

**SUDOKU**-There are many different sudoku variations. 4x4 sudoku is one of them. It has **four rows, four columns and four boxes** where the classic version has nine rows, nine columns and nine boxes. The 4x4 version is often called "sudoku for kids" because they are much simpler puzzles to solve. In this player insert the numbers one to four into a grid consisting of four squares subdivided into a further four smaller squares in such a way that every number appears once in each horizontal line, vertical line, and square.
